## About Redmond

We've been selling natural products since 1958 when two brothers uncovered ancient sea salt under their farm in Utah. We're proud of our brands, and we're pretty sure you'll love them as much as we do. But our products aren't the only thing that makes Redmond different.

We get excited when people buy Redmond products because people who buy Redmond products tend to shop intentionally, eat intentionally, and ultimately, live intentionally. That's what makes Redmond different: We make simple, clean, and real products for people who want to live their life intentionally just like we do.

# Unrefined Unpolluted

Real Salt® is the only ancient sea salt mined in America, and we bring it to you just the way nature created it—without additives or fillers. Thanks to its subtly sweet, never-bitter taste, Real Salt makes everything from popcorn to spice rubs the best you've ever had.
